

NEW YEAR, NEW GEAR!

We have a bunch of new gear launching this year on both the tackle and apparel side. Here's a quick run down of what new gear you'll be seeing in our authorized dealerships and 24/7 on Redington.com.

BOW RIVER WADING JACKET

State of the art construction and design make this wading jacket a fantastic value at \$249.95. The Bow River features waterproof breathable Red.Storm™ fabrication in a four-way stretch softshell. This jacket is full of fantastic features: multiple pockets, two large rear creels (that you can actually reach into while wearing), front hand warmer pockets, two large vertical pocket for fly boxes, watertight neoprene cuffs with Velcro closures, quiet material that stretches while you move. Fully seam-taped. Fully adjustable hood.

SKEENA RIVER SOFTSHELL

One of our hottest new styles that translates well on and off the water. The Skeena softshell is constructed tough from Redstorm™ two-way stretch material that is bonded to fleece. We've added ripstop on the top shoulders for durability. This jacket is highly water repellent and is an ideal layering piece or external shell. Pockets include a front slash-zip closed pockets and a low-profile mesh utility chest pocket with zippered pocket underneath. A colorful salmon fly embroidery is located on the right wrist.

HUNTER RIVER WADING JACKET

Anyone that has worn a PVC rain suit knows that it is one of the most reliable outdoor items an angler can have to keep them completely dry. However, the problem with PVC rain suits is that they are usually not created for very athletic or active applications. Introducing the new Redington Hunter River Wading Jacket™, the only wading jacket that offers all the benefits of PVC, but is constructed using a waterproof/breathable 4-way stretch PVC. Plenty of features make the Hunter river a must in wet climates.

FIREHOLE RIVER JACKET

The new Firehole makes an ideal layering piece. Made with 100% non-pilling Redline™ fleece, the Firehole is designed with full front zip, slash zip-closed pockets and a large upper chest utility pocket that is plenty big for a fly box. Very versatile styling.

MOCCASIN LAKE POLO

Classic henley styling combined with 100% non-pilling Redline™ fleece make this an ideal layering piece, on and off the water. High wick, quick dry fabrication. UPF 30+ sun protection.

SLOUGH CREEK ZIP NECK FLEECE

The Slough Creek Zip Neck Fleece is the perfect pullover for layering. Made with 100% non-pilling Redline™ fleece. High wick, quick dry fabrication. UPF 30+ sun protection.

MORNING MIST FLEECE MOC

Classic styling combined with 100% non-pilling Redline™ fleece make this an ideal layering piece, on and off the water. Gentle side darting for feminine fit. High wick, quick dry fabrication. UPF 30+sun protection.

LAMAR RIVER TOP

Super comfortable and flattering top with inspired wrap design. Sleeveless for freedom of movement when casting on those days Mother Nature cooperates. Silkscreen application across chest. Hits just below the hip.

CHENA RIVER WADER & BOOT

Members from Northwest Women's Fly Fishers helped Redington design the fit and features of the Chena River Wader, named after a world-class Arctic Grayling fishery in Alaska's interior. We're very excited about the many beneficial features designed into both of these items.

OUTLAST™ MIDWEIGHT UNDERWEAR

We're super excited to offer mid-weight layering pieces designed with Outlast™ fabric technology. Outlast™ temperature regulation is guaranteed to absorb, store & release body heat to keep temperature comfortable over a broad range of activity levels. Pill-resistant jersey face with comfortable brushed surface next to skin for comfort. Unlike traditional thermal underwear, Outlast™ technology reduces overheating and maintains a constant comfort zone throughout outdoor activity.

TOPWATER PANT

The Topwater was designed as a versatile pant that is reliable in and around water. Super quick drying 100% Dri-Core™ nylon means you never stay wet. The Flathead has a elastic waistband with zipper and button closure. Inner mesh brief and gusseted crotch. Reinforced belt loops for ruggedness. Mesh-draining side cargo pockets and a rear zip security pocket. Available in 30" and 32" inseams.

FLATHEAD RIVER PANT

Our newest member of the convertible pant family, the Flathead River. Designed for rugged outdoor use with 70% quick-dry cotton, 30% nylon. Side elastic on waist allows for give and ease of movement. Zip-off legs reveal a short with 7.5" inseam. Side mesh draining pockets with tippet spool pockets. Hook and loop closure at cuff. Available in two inseams.

HAND BLOCKED BATIKS

Classic 100% cotton poplin vented fishing shirt in authentic hand-blocked batik trout & salmon print or shark print. Coconut button trimmings. Wide front patch pockets and Velcro™ tabs on collar points. These are very popular shirts on and off the water.

WHITE WATER POLOS

Classic long-sleeve or short-sleeve polo styling with single button front placket closure. Super comfortable 100% rayon with high wick, quick dry, UPF 30+ protection. Fly embroidery on front chest.

CAPTIVA-KOOLER CAP

Our newest addition to the accessory family - the Captiva-Kooler. Made from our favorite 100% Nylon Dri-Block™ ultra quick-drying fabric. We added breezy mesh side panels and an adjustable nylon strap and back buckle for a better fit. UPF 30+ sun protection. In five fabulous colors.

BOX RIVER CHEST PACKS

Go vestless and try a Box Canyon Chest Pack. Available in both small and large sizes, they are a great way to keep all you need in one place and at your fingertips. External mesh pockets to house easy to access gear and tippets. Adjustable neck & chest straps. Internal fly keepers are included.

CPS WADING BOOT

The new CPS boot is sure to become the go-to Redington wading boot. This boot was designed with all-day wading comfort in mind and is full of ergonomic features. \$79.95

CAMPBELL RIVER TEE

One of our favorite new shirts. Made from light and breezy 100% Dri-block™ pique knit in a comfortable, relaxed fit. Perfect high-wick, quick-dry layering piece. We've added UPF 30+ protection. Fly embroidery on chest.

HOT NEW TACKLE

SS Super Sport

Our newest performance rod. Featuring the newest Redington technology. The SS Supersport is an ultra light, ultra-fast, ultra sensitive 4-piece performance rod that offers smooth casting, superb lifting power and balance with minimum weight. The blank is made with Redington™ Red. Core construction, which incorporates 85-million modulus Toray Japanese graphite, high-density resin coating and a layer of tape wound graphite, creating a super strong, super light blank. With titanium trimmings and high-end appointments, this "dabe" is sure to be become one of your favorites.

Red.Fly2

With the new Red.Fly2, we've broken new ground when it comes performance to price ratios. With over 20 new models to choose from and at a price like this, it's easy to justify filling out your arsenal with the fresh, new Red.Fly2. We've completely overhauled the original Red. Fly and outfitted the RF2 with updated actions, new graphite construction, and a great new look, without skimping on performance. Three spey models are available with a 15" fore-grip. With 2-piece and 4-piece outfits are available, you'll be ready to fish when you pull it out of the case!

New Crosswater

Value doesn't have to be at the expense of performance. The popular Crosswater family has been completely redesigned for 2007 with a new look and updated actions. The Crosswater is a spectacular all-around performance rod that is perfect for the entry level angler, or the avid angler who needs to add to their quiver and for anyone who isn't ready to spend a lot of money on a fly rod. But don't let the price fool you. Crosswater rods still have the same commitment to performance and dependability that we build into all of our rods so you can rest assured you're getting one of the best values on the water today.

Titanium CDL Reel

Redington's newest and boldest large arbor reel. The Titanium CDL. A true large arbor design with superior features and benefits that we love. An oversized cork disc drag offers consistent pressure, control and line handling. The Koyo one-way clutch bearing ensures smooth, immediate engagement for quick pick-ups. Made from anodized 6061 bar stock aluminum in an attractive titanium color with durability in mind. Use the Titanium CDL in both fresh and saltwater. Four sizes to choose from: 5/6, 7/8, 9/10, 11/12

New Crosswater Reel

Redesigned with new features for 2007, the Crosswater is still a superior value at \$55.00. Constructed of high-density graphite composite with a large arbor construction. The reel features an exclusive Rulon drag surface, an unfussy screw off quick-change spool, and a Koyo Japanese one-way clutch. Superb in both freshwater and saltwater applications.
